Composite Description

The performance results displayed herein represent the investment performance record for the Quality Dividend Pooled Fund (the “Fund”). The Fund is a large-cap value equity portfolio strategy that seeks to provide asset preservation, generate current income, and develop growth in current income and is intended to be a satellite portfolio providing income-seeking investors a superior alternative to investing in bonds.

Benchmark Description

As of 8/1/2022 the benchmark was retroactively changed for all presented periods from the Russell 1000 Value Index to the S&P 500 Low Volatility High Dividend Index. Due to the current income focus of the strategy, it was determined that the S&P 500 Low Volatility High Dividend Index is a more meaningful benchmark because of comparable dividend yields (current and historical) of both the strategy and the new benchmark.
