## Annual Investment Adviser's Report April 30, 2020 (Unaudited)

### Dear Shareholders,

During the fiscal year ended April 30, 2020, the Quality Dividend Fund (the "Fund") Class A shares (without the sales charge) declined 12.46%, compared to a drop of 11.01% for the Russell 1000® Value Index ("Russell 1000"). Since inception on September 30, 2013, the Fund's Class A shares (without the sales charge) have risen at an annualized rate of 5.31% versus 6.51% for the Russell 1000. The fiscal year began with sentiment improving and strong gains for stocks in the second half of 2019 amid the backdrop of accommodative Federal Reserve (Fed) policy, improving trade relations with China, record low unemployment, and healthy trends in consumer spending. The fiscal year was redefined by the first quarter of 2020, with the novel coronavirus COVID-19 pandemic leading to the closure of economies across the globe. The situation was exacerbated by an oil price war breaking out between Saudi Arabia and Russia. Energy and Financials were the hardest hit sectors, declining 35.95% and 25.58%, respectively, for the year through April. However, selling was broad, with only Information Technology in positive territory through April, posting a 0.11% gain on a total return basis. The desire for liquidity and concerns about the impact of the economic shutdown seemed to weigh disproportionately on stocks paying higher dividends. While the S&P 500 was down 9.29% YTD through April, the Fund and the Russell 1000 were down 18.48% and 18.49%, respectively, and the S&P 500 Low Volatility High Dividend Index was down 23.63%. Market action during this historic event has clearly been unfavorable for stocks paying a higher level of dividends. Although this can be frustrating, we continue to focus on the ability of stocks in the Fund to maintain and grow their dividends over time. We believe companies that have the will and ability to maintain and grow dividends will be positioned to weather this storm and reward shareholders as conditions improve. Through April 30, no current holdings had announced dividend cuts, and 10 of the 25 holdings have announced dividend increases in 2020.

*The performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher. Performance data current to the most recent month end may be obtained by calling (888) 201-5799.*

### Changes

Changes made during 2019 and into early 2020 reflected the normal course of management for us. Stocks were removed for reasons including strong performance reducing current yield, concerns about the potential for future dividend reductions, and concerns regarding management commitment to future dividend growth. During this period, we removed Merck & Co, Inc. (MRK), Ventas Inc. (VTR), Cisco Systems, Inc. (CSCO), Coca-Cola Co. (KO), ONEOK Inc. (OKE), and Kimberly-Clark Corp (KMB). Stocks were added that, we believe, presented an attractive combination of yield and growth potential, or were poised to benefit from the improving backdrop for consumer spending, including Carnival Corp. (CCL), Simon Property Group, Inc. (SPG), NetApp, Inc. (NTAP), Prudential Financial, Inc. (PRU), Gilead Science, Inc. (GILD), and Exxon Mobil, Inc. (XOM). When the economy shut down due to the pandemic, we removed companies we believed were most directly susceptible to declines in consumer spending and historically low oil prices. Companies with strong credit ratings and long dividend histories were added that we believe may be better positioned to navigate the current environment. Carnival Corp. (CCL), Williams Cos. Inc. (WMB), and Simon Property Group Inc. (SPG) were removed and United Parcel Service, Inc. (UPS), 3M Company (MMM), JPMorgan Chase & Company (JPM), and Emerson Electric Co. (EMR) were added.

### Distributions

The Fund has had four income distributions and capital gain distributions during the fiscal year. Class A shares distributed income of \$0.084 per share on July 1, 2019; \$0.102 per share on September 30, 2019; \$0.102 per share on January 2, 2020; and \$0.065 per share on April 1, 2020. Class C shares distributed income of \$0.059 per share on July 1, 2019; \$0.077 per share on October 1, 2019; \$0.078 per share on January 2, 2020; and \$0.042 per share on April 1, 2020. Class I shares distributed income of \$0.092 per share on July 1, 2019; \$0.110 per share on October 1, 2019; \$0.110 per share on January 2, 2020; and \$0.072 per share on April 1, 2020. All share classes distributed long term capital gains of \$0.743 per share on December 20, 2019.

### Outlook

We believe the self-induced coma in which the U.S. economy has been placed will eventually reverse and begin the journey to recovery. It is extremely difficult to determine how long this will take, but we trust there are brighter days ahead. We also believe that companies with strong business models, solid balance sheets, and good cash flow will be the first to emerge from this storm. In our opinion, the Fund is well-positioned to take advantage of the coming recovery.

*Investments cannot be made directly in an Index. Unmanaged index returns assume reinvestment of any and all distributions and do not reflect fees, expenses, or sales charges.*

*This letter is intended to assist shareholders in understanding how the Fund performed during the fiscal year ended April 30, 2020 and reflects the views of the investment adviser at the time of this writing. Of course, these views may change and do not guarantee the future performance of the Fund or the markets.*

*Mutual fund investing involves risk, including possible loss of principal. Although the Fund will invest primarily in income producing equities, the Fund cannot guarantee any particular level of distributions. Companies that have paid regular dividends to shareholders may decrease or eliminate dividend payments in the future. A fund pursuing a dividend oriented investment strategy may at times underperform other funds that invest more broadly or that have different investment styles.*

## Annual Investment Adviser's Report (Concluded) April 30, 2020 (Unaudited)

*The S&P 500 Index is an unmanaged index of equity prices and is representative of a broader market and range of securities than is found in the Fund's portfolio. The Morningstar Large Value Category consists of Funds that invest primarily in big U.S. companies that are less expensive or growing more slowly than other large-cap stocks. Stocks in the top 70% of the capitalization of the U.S. equity market are defined as large-cap. Value is defined based on low valuations (low price ratios and high dividend yields) and slow growth (low growth rates for earnings, sales, book value, and cash flow). The Russell 1000 Value Index consists of approximately 1,000 of the largest companies in the U.S. equity markets and measures how U.S. stocks in the equity value segment perform.*

*Foreign securities potentially entail special risks such as less liquid markets; political and economic instability; lax regulation; and adverse fluctuations in currency exchange rates.*

*Real estate investing is subject to special risks, including tenant default, declining occupancy rates, adverse changes in environmental and zoning regulations, and falling property values and rents due to deteriorating local or national economic conditions. REIT securities listed on a securities exchange may be subject to abrupt or erratic price movements because of interest rate changes and other factors. Non-listed REIT securities may lack sufficient liquidity to enable the Fund to sell them at an advantageous time or to minimize a loss.*

*Distributions from REITs may include a return of capital. A REIT that does not qualify as a REIT under the Internal Revenue Code ("IRC") will pay taxes on its earnings, which will reduce the dividends paid by the REIT to the Fund. Some REITs are highly leveraged, which may increase the risk of loss. MLPs are partnerships which are publicly traded and listed on a national securities exchange.*

*MLPs are interest rate sensitive investments that may trade in lower volumes and be subject to abrupt or erratic price movements and may involve less control by outside investors and potential conflicts of interest among an MLP and its general partner. The IRC treats distributions from an MLP as non-taxable return of capital until the value of the distributions exceeds a partner's basis in partnership interests, at which point the distributions are taxable. MLPs do not pay U.S. federal income tax at the partnership level, but an adverse change in tax laws could result in MLPs being treated as corporations for federal income tax purposes, which would reduce or eliminate an MLP's tax deductions. MLPs primarily are engaged in energy and natural resource sectors, which makes them sensitive to negative developments in those sectors.*

*The above commentary is for informational purposes only and does not represent an offer, recommendation or solicitation to buy, hold or sell any security. The specific securities identified and described do not represent all of the securities purchased or sold and you should not assume that investments in the securities identified and discussed will be profitable.*

*Portfolio composition is subject to change. The current and future portfolio holdings of the Fund are subject to investment risk.*

*The Fund’s “Total Annual Fund Operating Expenses” and “Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement”, as stated in the current prospectus dated September 1, 2019, are 1.42% and 1.24%, respectively, for Class A shares, 2.17% and 1.99%, respectively, for Class C shares and 1.17% and 0.99%, for Institutional Class shares of the Fund’s average daily net assets. These rates may fluctuate and may differ from the actual expenses incurred by the Fund for the period covered by this report. Equity Compass Investment Management, LLC (“EquityCompass” or the “Adviser”) has contractually agreed to reduce its investment advisory fee and/or reimburse certain expenses of the Fund to the extent necessary to ensure that the Fund’s total operating expenses (excluding taxes, fees and expenses attributable to a distribution or service plan adopted by FundVantage Trust (the “Trust”), “Acquired Fund Fees and Expenses,” dividend and interest expense on securities sold short, interest, extraordinary items and brokerage commissions) do not exceed 0.99% of average daily net assets of the Fund (the “Expense Limitation”). The Expense Limitation will remain in effect until August 31, 2020, unless the Board of Trustees (“Board of Trustees”) of the Trust approves its earlier termination. The Adviser is entitled to recover, subject to approval by the Board of Trustees, such amounts reduced or reimbursed for a period of up to three (3) years from the date on which the Adviser reduced its compensation and/or assumed expenses for the Fund. The Fund intends to evaluate performance as compared to those of the Russell 1000<sup>®</sup> Value Index. The Russell 1000<sup>®</sup> Value Index is an unmanaged index that measures the performance of the highest-ranking 1,000 stocks in the Russell 3000<sup>®</sup> Index, which represents about 90% of the total market capitalization of all listed U.S. stocks.

Mutual fund investing involves risk, including possible loss of principal. The Fund's dividend income and distributions will fluctuate, and at times the Fund may underperform other funds that invest more broadly or that have different investment styles. Some of the assets in which the Fund may invest entail special risks. Foreign stocks may be affected by currency fluctuations, social and political instability, and lax regulatory and financial reporting standards. Master Limited Partnerships ("MLPs") may fluctuate abruptly in value and be difficult to liquidate. Real Estate Investment Trusts ("REITs") entail risks related to real estate, such as tenant defaults, declining occupancy rates, and falling property values due to deteriorating economic conditions. Listed REIT stocks may fluctuate erratically in market price while non-listed REITs may be illiquid.

# QUALITY DIVIDEND FUND

## **Fund Expense Disclosure April 30, 2020 (Unaudited)**

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, if any, and redemption fees; and (2) ongoing costs, including management fees, distribution and/or service (Rule 12b-1) fees, if any, and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the six-month period from November 1, 2019 through April 30, 2020 and held for the entire period.

### **Actual Expenses**

The first line of each accompanying table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

### **Hypothetical Examples for Comparison Purposes**

The second line of each accompanying table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not your Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the accompanying table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), if any, or redemption fees. Therefore, the second line of the accompanying table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

# QUALITY DIVIDEND FUND

## Notes to Financial Statements April 30, 2020

### 1. Organization and Significant Accounting Policies

The Quality Dividend Fund (the “Fund”) is a diversified, open-end management investment company registered under the Investment Company Act of 1940, as amended, (the “1940 Act”), which commenced investment operations on September 30, 2013. The Fund is a separate series of FundVantage Trust (the “Trust”) which was organized as a Delaware statutory trust on August 28, 2006. The Trust is a “series trust” authorized to issue an unlimited number of separate series or classes of shares of beneficial interest. Each series is treated as a separate entity for certain matters under the 1940 Act, and for other purposes, and a shareholder of one series is not deemed to be a shareholder of any other series. The Fund offers separate classes of shares: Class A, Class C and Institutional Class shares. Class A shares are subject to a front end sales charge of 5.75%. Front-end sales charges may be reduced or waived under certain circumstances. A contingent deferred sales charge (“CDSC”), as a percentage of the lower of the original purchase price or net asset value at redemption, of 1.00% may be imposed on full or partial redemptions of Class A shares made within twelve months of purchase where: (i) \$1 million or more of Class A shares was purchased without an initial sales charge, and (ii) the selling broker-dealer received a commission for such sale. A CDSC of 1.00% may apply to Class C shares when shares are redeemed within 12 months after initial purchase where the selling broker-dealer received a commission for such sale.

The Fund is an investment company and follows accounting and reporting guidance in the Financial Accounting Standards Board Accounting Standards Codification Topic 946.

**Portfolio Valuation** — The Fund’s net asset value (“NAV”) is calculated once daily at the close of regular trading hours on the New York Stock Exchange (“NYSE”) (typically 4:00 p.m. Eastern time) on each day the NYSE is open. Securities held by the Fund are valued using the closing price or the last sale price on a national securities exchange or the National Association of Securities Dealers Automatic Quotation System (“NASDAQ”) market system where they are primarily traded. Equity securities traded in the over-the-counter (“OTC”) market are valued at their closing prices. If there were no transactions on that day, securities traded principally on an exchange or on NASDAQ will be valued at the mean of the last bid and ask prices prior to the market close. Investments in other open-end investment companies are valued based on the NAV of the investment companies (which may use fair value pricing as discussed in their prospectuses). If market quotations are unavailable or deemed unreliable, securities will be valued in accordance with procedures adopted by the Trust’s Board of Trustees (“Board of Trustees”). Relying on prices supplied by pricing services or dealers or using fair valuation may result in values that are higher or lower than the values used by other investment companies and investors to price the same investments. In the event that market quotes are not readily available, and the security or asset cannot be valued pursuant to one of the valuation methods, the value of the security or asset will be determined in good faith by the Adviser. The Trust has established a Valuation Committee which performs certain functions including the oversight of the Adviser’s fair valuation determinations.

# QUALITY DIVIDEND FUND

## Notes to Financial Statements (Continued) April 30, 2020

**Fair Value Measurements** — The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 — quoted prices in active markets for identical securities;
- Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 — significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used, as of April 30, 2020, in valuing the Fund's investments carried at fair value:

	Total Value at 04/30/20	Level 1 Quoted Price	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Common Stocks* . . . . .	\$ 58,134,317	\$ 58,134,317	\$ —	\$ —
Exchange Traded Fund. . . . .	154,317	154,317	—	—
Total Investments . . . . .	<u>\$ 58,288,634</u>	<u>\$ 58,288,634</u>	<u>\$ —</u>	<u>\$ —</u>

\* Please refer to Portfolio of Investments for further details on portfolio holdings.

At the end of each quarter, management evaluates the classification of Levels 1, 2 and 3 assets and liabilities. Various factors are considered, such as changes in liquidity from the prior reporting period; whether or not a broker is willing to execute at the quoted price; the depth and consistency of prices from third party pricing services; and the existence of contemporaneous, observable trades in the market. Additionally, management evaluates the classification of Level 1 and Level 2 assets and liabilities on a quarterly basis for changes in listings or delistings on national exchanges.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Fund may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or otherwise less liquid than publicly traded securities.

# QUALITY DIVIDEND FUND

## Notes to Financial Statements (Continued) April 30, 2020

For fair valuations using significant unobservable inputs, U.S. generally accepted accounting principles (“U.S. GAAP”) require the Fund to present a reconciliation of the beginning to ending balances for reported market values that present changes attributable to total realized and unrealized gains or losses, purchase and sales, and transfers in and out of Level 3 during the period. A reconciliation of Level 3 investments is presented only when the Fund had an amount of Level 3 investments at the end of the reporting period that was meaningful in relation to its net assets. The amounts and reasons for all transfers in and out of each Level within the three-tier hierarchy are disclosed when the Fund had an amount of total transfers during the reporting period that was meaningful in relation to its net assets as of the end of the reporting period.

For the year ended April 30, 2020, there were no transfers in or out of Level 3.

**Use of Estimates** — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates and those differences could be material.

**Investment Transactions, Investment Income and Expenses** — Investment transactions are recorded on trade date for financial statement preparation purposes. Realized gains and losses on investments sold are recorded on the identified cost basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Estimated components of distributions received from real estate investment trusts may be considered income, return of capital distributions or capital gain distributions. Return of capital distributions are recorded as a reduction of cost of the related investments. Distribution (12b-1) fees and shareholder services fees relating to a specific class are charged directly to that class. Fund level expenses common to all classes, investment income and realized and unrealized gains and losses on investments are allocated to each class based upon relative daily net assets of each class. General expenses of the Trust are generally allocated to each fund in proportion to its relative daily net assets. Expenses directly attributable to a particular fund in the Trust are charged directly to that fund.

**MLP Common Units** — Master Limited Partnership (“MLP”) common units represent limited partnership interests in the MLP. Common units are generally listed and traded on the U.S. securities exchanges or OTC with their value fluctuating predominantly based on the success of the MLP. Unlike owners of common stock of a corporation, owners of MLP common units have limited voting rights and have no ability to annually elect directors. MLPs generally distribute all available cash flow (cash flow from operations less maintenance capital expenditures) in the form of quarterly distributions. Common unit holders have first priority to receive quarterly cash distributions up to the minimum quarterly distribution and have arrearage rights. In the event of liquidation, common unit holders have preference over subordinated units, but not debt holders or preferred unit holders, to remaining assets of the MLP.

# QUALITY DIVIDEND FUND

## Notes to Financial Statements (Continued) April 30, 2020

***Dividends and Distributions to Shareholders*** — Dividends from net investment income and distributions from net realized capital gains, if any, are declared, recorded on ex-date and paid at least annually to shareholders. Income dividends and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP.

***U.S. Tax Status*** — No provision is made for U.S. income taxes as it is the Fund's intention to continue to qualify for and elect the tax treatment applicable to regulated investment companies under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), and make the requisite distributions to its shareholders which will be sufficient to relieve it from U.S. income and excise taxes.

***Other*** — In the normal course of business, the Fund may enter into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on claims that may be made against the Fund in the future, and therefore, cannot be estimated; however, based on experience, the risk of material loss for such claims is considered remote.

Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to its long-term implications. The COVID-19 pandemic could adversely affect the value and liquidity of the Fund's investments, impair the Fund's ability to satisfy redemption requests, and negatively impact the Fund's performance. In addition, the outbreak of COVID-19, and measures taken to mitigate its effects, could result in disruptions to the services provided to the Fund by its service providers. Fund management is continuing to monitor this development and evaluate its impact on the Fund.

## **2. Transactions with Related Parties and Other Service Providers**

EquityCompass Investment Management, LLC ("EquityCompass" or the "Adviser"), serves as investment adviser to the Fund pursuant to an investment advisory agreement with the Trust. For its services, the Adviser is paid a monthly fee at the annual rate of 0.60% of the Fund's average daily net assets. The Adviser has contractually agreed to reduce its investment advisory fee and/or reimburse certain expenses of the Fund to the extent necessary to ensure that the Fund's total operating expenses (excluding taxes, fees and expenses attributable to a distribution or service plan adopted by the Trust, "Acquired Fund Fees and Expenses," dividend and interest expense on securities sold short, interest, extraordinary items and brokerage commissions) do not exceed 0.99% of average daily net assets of the Fund (the "Expense Limitation"). The Expense Limitation will remain in effect until August 31, 2020 unless the Board of Trustees of the Trust approves its earlier termination. The Adviser is entitled to recover, subject to approval by the Board of Trustees, such amounts reduced or reimbursed for a period of up to three (3) years from the date on which the Adviser reduced its compensation and/or assumed expenses for the Fund. The Adviser is permitted to seek reimbursement from the Fund, subject to certain limitations, for fees it waived and Fund expenses it paid to the extent the total annual fund expenses do not exceed the limits described above or any lesser limits in effect at the time of reimbursement. No recoupment will occur unless the

For the year ended April 30, 2020, the Adviser earned advisory fees of \$418,840 and waived fees of \$84,774.

### Other Service Providers

The Bank of New York Mellon ("BNY Mellon") serves as administrator and custodian for the Fund. For providing administrative and accounting services, BNY Mellon is entitled to receive a monthly fee equal to an annual percentage rate of the Fund's average daily net assets and is subject to certain minimum monthly fees. For providing certain custodial services, BNY Mellon is entitled to receive a monthly fee, subject to certain minimum, and out of pocket expenses.

BNY Mellon Investment Servicing (US) Inc. (the "Transfer Agent") provides transfer agent services to the Fund. The Transfer Agent is entitled to receive a monthly fee, subject to certain minimum, and out of pocket expenses.

The Trust, on behalf of the Fund, has entered into agreements with financial intermediaries to provide recordkeeping, processing, shareholder communications and other services to customers of the intermediaries investing in the Fund and has agreed to compensate the intermediaries for providing those services. The fees incurred by the Fund for these services are included in Transfer agent fees in the Statement of Operations.

Foreside Funds Distributors LLC (the "Underwriter") provides principal underwriting services to the Fund pursuant to an underwriting agreement between the Trust and the Underwriter.

The Trust and the Underwriter are parties to an underwriting agreement. The Trust has adopted a distribution plan for Class A and Class C shares in accordance with Rule 12b-1 under the 1940 Act. Pursuant to the Class A and Class C shares plan, the Fund compensates the Underwriter for direct and indirect costs and expenses incurred in connection with advertising, marketing and other distribution services in an amount not to exceed 0.25% and 1.00% (0.75% Rule 12b-1 distribution fee and 0.25% shareholder service fee), respectively, on an annualized basis of the average daily net assets of the Fund's Class A and Class C shares.

### Trustees and Officers

The Trust is governed by its Board of Trustees. The Trustees receive compensation in the form of an annual retainer and per meeting fees for their services to the Trust. An employee of BNY Mellon serves as the Secretary of the Trust and is not compensated by the Fund or the Trust.

JW Fund Management LLC (“JWFM”) provides a Principal Executive Officer and Principal Financial Officer, respectively, to the Trust. Duff & Phelps, LLC (“D&P”) provides the Trust with a Chief Compliance Officer and an Anti-Money Laundering Officer. JWFM and D&P are compensated for their services provided to the Trust.

### 3. Investment in Securities

For the year ended April 30, 2020, aggregate purchases and sales of investment securities (excluding short-term investments) of the Fund were as follows:

	<u>Purchases</u>	<u>Sales</u>
Investment Securities . . . . .	\$26,371,019	\$31,751,340

### 4. Capital Share Transactions

### 5. Federal Tax Information

The Fund has followed the authoritative guidance on accounting for and disclosure of uncertainty in tax positions, which requires the Fund to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as tax benefit or expense in the current year. The Fund has determined that there was no effect on the financial statements from following this authoritative guidance. In the normal course of business, the Fund is subject to examination by federal, state and local jurisdictions, where applicable, for tax years for which applicable statutes of limitations have not expired.

## Notes to Financial Statements (Continued) April 30, 2020

Distributions are determined in accordance with federal income tax regulations, which may differ in amount or character from net investment income and realized gains for financial reporting purposes. Accordingly, the character of distributions and composition of net assets for tax purposes may differ from those reflected in the accompanying financial statements. To the extent these differences are permanent, such amounts are reclassified within the components of net assets based on the tax treatment; temporary differences do not require reclassifications. Net investment income, net realized gains and net assets are not affected by these adjustments. For the year ended April 30, 2020, there were no reclassifications.

For the year ended April 30, 2020, the tax character of distributions paid by the Fund was \$1,968,917 of ordinary income dividends, \$3,881,743 of long-term capital gains dividends and \$51,550 of return of capital. For the year ended April 30, 2019, the tax character of distributions paid by the Fund was \$1,895,819 of ordinary income dividends and \$3,318,293 of long-term capital gains dividends. Short-term capital gains are reported as ordinary income for federal income tax purposes.

As of April 30, 2020, the components of distributable earnings on a tax basis were as follows:

<u>Undistributed Long-Term Gain</u>	<u>Net Unrealized Depreciation</u>	<u>Other Book/Tax Differences</u>	<u>Total Distributable Earnings/(Deficit)</u>
\$ —	\$(219,499)	\$(2,403,584)	\$(2,623,083)

The differences between the book and tax basis components of distributable earnings relate primarily to the timing and recognition of income and gains for federal income tax purposes.

As of April 30, 2020, the federal tax cost, aggregate gross unrealized appreciation and depreciation of securities held by the Fund were as follows:

Federal tax cost . . . . .	<u>\$58,508,133</u>
Gross unrealized appreciation . . . . .	\$ 6,461,538
Gross unrealized depreciation . . . . .	<u>(6,681,037)</u>
Net unrealized depreciation . . . . .	<u>\$ (219,499)</u>

Pursuant to federal income tax rules applicable to regulated investment companies, the Fund may elect to treat certain capital losses between November 1 and April 30 and late year ordinary losses ((i) ordinary losses between January 1 and April 30, and (ii) specified ordinary and currency losses between November 1 and April 30) as occurring on the first day of the following tax year. For the year ended April 30, 2020, the Fund had long-term capital gain deferrals of \$1,955,408 and short-term capital loss deferrals of \$4,353,073.

## **Notes to Financial Statements (Concluded)** **April 30, 2020**

Accumulated capital losses represent net capital loss carryforwards as of April 30, 2020, that may be available to offset future realized capital gains and thereby reduce future capital gains distributions. As of April 30, 2020, the Fund did not have any capital loss carryforwards.

### **6. Subsequent Events**

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

## Report of Independent Registered Public Accounting Firm

To the Board of Trustees of FundVantage Trust and  
Shareholders of the Quality Dividend Fund

### Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Quality Dividend Fund (the "Fund") (one of the series constituting FundVantage Trust (the "Trust")), including the portfolio of investments, as of April 30, 2020, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the series constituting FundVantage Trust) at April 30, 2020, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2020, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst + Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more EquityCompass Investment Management, LLC investment companies since 2014.

## Shareholder Tax Information (Unaudited)

The Fund is required by Subchapter M of the Internal Revenue Code to advise its shareholders of the U.S. federal tax status of distributions received by the Fund's shareholders in respect of such fiscal year. During the fiscal year ended April 30, 2020, the Fund paid \$1,968,917 of ordinary income dividends, \$3,881,743 of long-term capital gain dividends and \$51,550 of return of capital to its shareholders. Dividends from short-term capital gains are treated as ordinary income dividends for federal income tax purposes.

The Fund designates 100.00% of the ordinary income distribution as qualified dividend income pursuant to the Jobs and Growth Tax Relief Reconciliation Act of 2003.

The percentage of ordinary income dividends qualifying for the corporate dividends received deduction is 100.00%.

The percentage of qualified interest income related dividends not subject to withholding tax for non-resident aliens and foreign corporations is 0.07%.

The Fund designates 100.00% of ordinary income distributions as qualified short-term gain pursuant to the American Jobs Creation Act of 2004.

All designations are based on financial information available as of the date of this annual report and, accordingly, are subject to change. For each item, it is the intention of the Fund to designate the maximum amount permitted under the Internal Revenue Code of 1986, as amended, and the regulations thereunder.

Because the Fund's fiscal year is not the calendar year, another notification will be sent with respect to calendar year 2020. The second notification, which will reflect the amount, if any, to be used by calendar year taxpayers on their U.S. federal income tax returns, will be made in conjunction with Form 1099-DIV and will be mailed in January 2021.

Foreign shareholders will generally be subject to U.S. withholding tax on the amount of their ordinary income dividends. They will generally not be entitled to a foreign tax credit or deduction for the withholding taxes paid by the Fund, if any.

In general, dividends received by tax-exempt recipients (e.g., IRAs and Keoghs) need not be reported as taxable income for U.S. federal income tax purposes. However, some retirement trusts (e.g., corporate, Keogh and 403(b)(7) plans) may need this information for their annual information reporting.

Shareholders are advised to consult their own tax advisers with respect to the tax consequences of their investment in the Fund.
