## Annual Investment Adviser's Report April 30, 2023 (Unaudited)

**Dear Shareholder,**

During the fiscal year ended April 30, 2023, the Quality Dividend Fund (the "Fund") Class A shares (without the sales charge) declined 3.00%, compared to a decline of 5.27% for the S&P<sup>®</sup> 500 Low Volatility High Dividend Index and an increase of 1.21% for the Russell 1000<sup>®</sup> Value Index ("Russell 1000<sup>®</sup>"). Since inception on September 30, 2013, the Fund's Class A shares (without the sales charge) have risen at an annualized rate of 7.38% versus 9.25% for the S&P<sup>®</sup> 500 Low Volatility High Dividend Index and 8.92% for the Russell 1000<sup>®</sup>.

For investors, 2022 was a year most would like to forget. There was nowhere to hide as U.S. equity and bond markets took a beating—the worst year for the stock market since 2008, when Lehman Brothers collapsed and snapped a three-year winning streak. For the year, the S&P<sup>®</sup> 500, NASDAQ Composite, and the Dow Jones Industrial Average all finished in negative territory, down 18.11%, 32.54%, and 6.86%, respectively. Bond investors suffered the same fate as all areas of the fixed income market endured significant losses. The Bloomberg U.S. Aggregate Bond Index finished down 13.01%—representing an unprecedented two consecutive years of negative returns. Last year was all about capital preservation—the number one priority of the Quality Dividend Fund. Our focus on high-quality dividend-paying stocks helped soften the blow that equity markets experienced in 2022.

The first quarter of 2023 got off to a good start if you were an investor in large cap technology stocks as demonstrated by the NASDAQ Composite, up 17.0%. This performance masked the underlying malaise in the broader market, which did not meaningfully participate in the technology rally as evidenced by the S&P<sup>®</sup> 500 Equal Weight Index, which was up a more modest 2.4% during the quarter.

The dramatic turnaround among large cap technology stocks, off their 2022 lows, can be attributed to a significant decline in bond yields as well as other macro factors. The market's anticipation that the Federal Reserve (Fed) may be nearing the end of its interest rate hiking cycle has driven bond yields lower. Financial stress in the banking system that led to two large bank failures during the quarter may weigh on the Fed's ability to raise interest rates significantly higher as financial stability now enters into the decision-making process.

Although inflation appears to have peaked and has begun to gradually come down, it still remains persistently high relative to the Fed's stated target of 2%. Short labor supply, wage increases, and resilient service demand continue to keep inflation stubbornly higher than the Fed would like. As a result, investors may have to get comfortable with the notion that inflation could remain somewhat higher than the Fed would normally like for a period of time.

If the majority of the Fed's monetary tightening is indeed in the rearview mirror, then the market is likely to begin to focus on the effects that higher rates will have on economic growth and corporate earnings. The consequences of higher rates to offset inflation could result in a significant economic slowdown—raising the probability of a recession. Monetary tightening has historically had a lag effect on the economy and we are now just beginning to see the first signs of this in first quarter corporate earnings expectations.

The Fund fared well against both stocks and bonds last year for several reasons. Dividend-paying stocks, particularly those offering a higher yield, held up better than the overall stock market. In an environment where cash flows further into the future are repriced at a lower value, such as when interest rates rise rapidly, the "bird in hand" of current dividend income becomes more attractive. Relative to bonds, dividend-paying stocks have the advantage of being able to provide dividend growth that can help preserve purchasing power when inflation increases.

The environment in 2023 has been more challenging. Concerns over a recession tend to have a greater impact on companies more dependent on economic growth. Large technology stocks with high intrinsic growth have enjoyed strong relative performance, with indices such as the NASDAQ 100 up 21.40% YTD through April, while the S&P<sup>®</sup> 500 Low Volatility High Dividend Index is down 2.28% over the same period. The Fund is down 2.21% YTD, performing in line with higher dividend-paying stocks.

While price performance for stocks has been challenging over the past 5 quarters, Fund holdings continue to provide attractive income relative to broad stock indices and have provided dividend growth. Last year, 24 of the 29 Fund holdings raised their dividend by an average of 4.85%, and through the first quarter of 2023, 10 of the 29 holdings had raised their dividend by an average of 4.20%. We believe consistent and growing income can provide stability amid market volatility.

## Annual Investment Adviser's Report (Continued) April 30, 2023 (Unaudited)

### Changes

We continue to believe market turmoil creates investment opportunity and, as such, have taken advantage of recent volatility and stock price weakness to make changes to the portfolio. As mentioned previously, Fed policy has a strong likelihood of leading to economic slowdown and possible recession. We believe market action has priced in a recession in several names, creating opportunities for more attractive levels of current income and the potential for growth in an economic recovery. With the Fed tightening cycle likely nearing an end, these adjustments should position the Fund well for a recovery scenario.

During the last fiscal year, we removed Warner Brothers Discovery Inc. (WBD), Valero Energy Corp. (VLO), Cardinal Health Inc. (CAH), Emerson Electric Co. (EMR) and Intel Corp. (INTC). Stocks that were added include Best Buy Co., Inc. (BBY), Stanley Black & Decker Inc. (SWK), Crown Castle Inc. (CCI) and Amgen Inc. (AMGN).

### Distributions

The Fund has had four income distributions during the fiscal year. Class A shares distributed income of \$0.097 per share on July 1, 2022; \$0.084 per share on October 3, 2022; \$0.087 per share on January 3, 2023; and \$0.089 per share on March 31, 2023. Class C shares distributed income of \$0.068 per share on July 1, 2022; \$0.050 per share on October 3, 2022; \$0.064 per share on January 3, 2023; and \$0.065 per share on March 31, 2023. Class I shares distributed income of \$0.106 per share on July 1, 2022; \$0.093 per share on October 3, 2022; \$0.095 per share on January 3, 2023; and \$0.097 per share on March 31, 2023. There was a capital gain distribution of \$1.918 per share on December 15, 2022.

### Outlook

We continue to believe that the past decade's annual average U.S. equity returns of 16.5% will most likely be unsustainable going forward and have begun to see evidence of this. Since the beginning of 2022, the S&P<sup>®</sup> 500 is down 7.75%, while the Dow Jones Industrial Average and NASDAQ have lost 4.05% and 14.05%, respectively. Over the last two years the S&P<sup>®</sup> 500 is up 6.7%, or 3.3% annualized. Short-term interest rates continue to provide a viable investment alternative to equities. The equity risk premium (the difference between the earnings yield inverse of the P/E multiple) on the S&P<sup>®</sup> 500 and that of the 10-year U.S. Treasury bond is at its lowest point since 2007.

We caution investors to expect the current volatility to continue for the better part of 2023 as the market sorts out the effects of the Fed's interest rate hikes on the economy. We believe that dividend stocks can help provide a margin of safety in times of economic stress and market turmoil.

Sincerely,

**Thomas P. Mulroy**

## **Annual Investment Adviser's Report (Concluded)** **April 30, 2023** **(Unaudited)**

*This letter is intended to assist shareholders in understanding how the Fund performed during the fiscal year ended April 30, 2022 and reflects the views of the investment adviser at the time of this writing. Of course, these views may change and do not guarantee the future performance of the Fund or the markets.*

*Mutual fund investing involves risk, including possible loss of principal. Although the Fund will invest primarily in income producing equities, the Fund cannot guarantee any particular level of distributions. Companies that have paid regular dividends to shareholders may decrease or eliminate dividend payments in the future. A fund pursuing a dividend oriented investment strategy may at times underperform other funds that invest more broadly or that have different investment styles.*

*The S&P 500<sup>®</sup> Index is an unmanaged index of equity prices and is representative of a broader market and range of securities than is found in the Fund's portfolio. The Morningstar Large Value Category consists of Funds that invest primarily in big U.S. companies that are less expensive or growing more slowly than other large-cap stocks. Stocks in the top 70% of the capitalization of the U.S. equity market are defined as large-cap. Value is defined based on low valuations (low price ratios and high dividend yields) and slow growth (low growth rates for earnings, sales, book value, and cash flow). The Russell 1000<sup>®</sup> Value Index consists of approximately 1,000 of the largest companies in the U.S. equity markets and measures how U.S. stocks in the equity value segment perform.*

*Foreign securities potentially entail special risks such as less liquid markets; political and economic instability; lax regulation; and adverse fluctuations in currency exchange rates.*

*Real estate investing is subject to special risks, including tenant default, declining occupancy rates, adverse changes in environmental and zoning regulations, and falling property values and rents due to deteriorating local or national economic conditions. Real Estate Investment Trust ("REIT") securities listed on a securities exchange may be subject to abrupt or erratic price movements because of interest rate changes and other factors. Non-listed REIT securities may lack sufficient liquidity to enable the Fund to sell them at an advantageous time or to minimize a loss.*

*Distributions from REITs may include a return of capital. A REIT that does not qualify as a REIT under the Internal Revenue Code ("IRC") will pay taxes on its earnings, which will reduce the dividends paid by the REIT to the Fund. Some REITs are highly leveraged, which may increase the risk of loss. MLPs are partnerships which are publicly traded and listed on a national securities exchange.*

*Master Limited Partnerships ("MLPs") are interest rate sensitive investments that may trade in lower volumes and be subject to abrupt or erratic price movements and may involve less control by outside investors and potential conflicts of interest among an MLP and its general partner. The IRC treats distributions from an MLP as non-taxable return of capital until the value of the distributions exceeds a partner's basis in partnership interests, at which point the distributions are taxable. MLPs do not pay U.S. federal income tax at the partnership level, but an adverse change in tax laws could result in MLPs being treated as corporations for federal income tax purposes, which would reduce or eliminate an MLP's tax deductions. MLPs primarily are engaged in energy and natural resource sectors, which makes them sensitive to negative developments in those sectors.*

*The above commentary is for informational purposes only and does not represent an offer, recommendation or solicitation to buy, hold or sell any security. The specific securities identified and described do not represent all of the securities purchased or sold and you should not assume that investments in the securities identified and discussed will be profitable.*

*Portfolio composition is subject to change. The current and future portfolio holdings of the Fund are subject to investment risk.*

## Fund Expense Disclosure April 30, 2023 (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, if any, and redemption fees; and (2) ongoing costs, including management fees, distribution and/or service (Rule 12b-1) fees (if any) and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the six-month period from November 1, 2022 through April 30, 2023 and held for the entire period.

### Actual Expenses

The first line of each accompanying table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

### Hypothetical Examples for Comparison Purposes

The second line of each accompanying table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not your Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the accompanying table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) on purchase payments (if any) or redemption fees. Therefore, the second line of the accompanying table is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	<u>Beginning Account Value</u> <u>November 1, 2022</u>	<u>Ending Account Value</u> <u>April 30, 2023</u>	<u>Annualized</u> <u>Expense Ratio</u> *	<u>Expenses Paid</u> <u>During Period</u>

Hypothetical (5% return before expenses)	1,000.00	1,019.89	0.99%	4.96

\* Expenses are equal to an annualized expense ratio for the six-month period ended April 30, 2023 of 1.24%, 1.99% and 0.99% for Class A, Class C and Institutional Class shares, respectively, for the Fund, multiplied by the average account value over the period, multiplied by the number of days in the most recent period (181), then divided by 365 to reflect the period. The Fund's ending account values on the first line in the table are based on the actual six-month total returns for the Fund of 1.53%, 1.20% and 1.66% for Class A, Class C and Institutional Class shares, respectively.

# QUALITY DIVIDEND FUND

## Notes to Financial Statements April 30, 2023

### 1. Organization and Significant Accounting Policies

The Quality Dividend Fund (the “Fund”) is a diversified, open-end management investment company registered under the Investment Company Act of 1940, as amended, (the “1940 Act”), which commenced investment operations on September 30, 2013. The Fund is a separate series of FundVantage Trust (the “Trust”) which was organized as a Delaware statutory trust on August 28, 2006. The Trust is a “series trust” authorized to issue an unlimited number of separate series or classes of shares of beneficial interest. Each series is treated as a separate entity for certain matters under the 1940 Act, and for other purposes, and a shareholder of one series is not deemed to be a shareholder of any other series. The Fund offers separate classes of shares: Class A, Class C and Institutional Class shares. Class A shares are subject to a front end sales charge of 5.75%. Front-end sales charges may be reduced or waived under certain circumstances. A contingent deferred sales charge (“CDSC”), as a percentage of the lower of the original purchase price or net asset value at redemption, of 1.00% may be imposed on full or partial redemptions of Class A shares made within twelve months of purchase where: (i) \$1 million or more of Class A shares was purchased without an initial sales charge, and (ii) the selling broker-dealer received a commission for such sale. A CDSC of 1.00% may apply to Class C shares when shares are redeemed within 12 months after initial purchase where the selling broker-dealer received a commission for such sale.

The Fund is an investment company and follows accounting and reporting guidance in the Financial Accounting Standards Board Accounting Standards Codification Topic 946.

**Portfolio Valuation** — The Quality Dividend Fund’s net asset value (“NAV”) is calculated once daily at the close of regular trading hours on the New York Stock Exchange (“NYSE”) (typically 4:00 p.m. Eastern time) on each day the NYSE is open. Securities held by the Fund are valued using the closing price or the last sale price on a national securities exchange or the National Association of Securities Dealers Automatic Quotation System (“NASDAQ”) market system where they are primarily traded. Equity securities traded in the over-the-counter (“OTC”) market are valued at their closing prices. If there were no transactions on that day, securities traded principally on an exchange or on NASDAQ will be valued at the mean of the last bid and ask prices prior to the market close. Investments in other open-end investment companies are valued based on the NAV of the investment companies (which may use fair value pricing as discussed in their prospectuses). Securities that do not have a readily available current market value are valued in good faith by the Adviser as “valuation designee” under the oversight of the Trust’s Board of Trustees. Relying on prices supplied by pricing services or dealers or using fair valuation may result in values that are higher or lower than the values used by other investment companies and investors to price the same investments. The Adviser has adopted written policies and procedures for valuing securities and other assets in circumstances where market quotes are not readily available. In the event that market quotes are not readily available, and the security or asset cannot be valued pursuant to one of the valuation methods, the value of the security or asset will be determined in good faith by the Adviser pursuant to its policies and procedures. On a quarterly basis, the Adviser’s fair valuation determinations will be reviewed by the Trust’s Board of Trustees.

**Fair Value Measurements** — The inputs and valuation techniques used to measure fair value of the Fund’s investments are summarized into three levels as described in the hierarchy below:

- Level 1 — quoted prices in active markets for identical securities;
- Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 — significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Transfers in and out are recognized at the value at the end of the period.

# QUALITY DIVIDEND FUND

## Notes to Financial Statements (Continued) April 30, 2023

The following is a summary of the inputs used, as of April 30, 2023, in valuing the Fund's investments carried at fair value:

	Total Value at 04/30/23	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs
<b>Assets</b>				
Investments in Securities* . . . . .	\$58,067,593	\$58,067,593	\$ —	\$ —

\* Please refer to Portfolio of Investments for further details on portfolio holdings.

At the end of each quarter, management evaluates the classification of Levels 1, 2 and 3 assets and liabilities. Various factors are considered, such as changes in liquidity from the prior reporting period; whether or not a broker is willing to execute at the quoted price; the depth and consistency of prices from third-party pricing services; and the existence of contemporaneous, observable trades in the market. Additionally, management evaluates the classification of Level 1 and Level 2 assets and liabilities on a quarterly basis for changes in listings or delistings on national exchanges.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Fund may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or otherwise less liquid than publicly traded securities.

For fair valuations using significant unobservable inputs, U.S. generally accepted accounting principles ("U.S. GAAP") require the Fund to present a reconciliation of the beginning to ending balances for reported market values that present changes attributable to total realized and unrealized gains or losses, purchase and sales, and transfers in and out of Level 3 during the period. A reconciliation of Level 3 investments is presented only when the Fund had an amount of Level 3 investments at the end of the reporting period that was meaningful in relation to its net assets. The amounts and reasons for all transfers in and out of Level 3 are disclosed when the Fund had an amount of transfers during the reporting period that was meaningful in relation to its net assets as of the end of the reporting period.

For the year ended April 30, 2023, there were no transfers in or out of Level 3.

**Use of Estimates** — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates and those differences could be material.

**Investment Transactions, Investment Income and Expenses** — Investment transactions are recorded on trade date for financial statement preparation purposes. Realized gains and losses on investments sold are recorded on the identified cost basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Fund may be subject to foreign taxes on income, a portion of which may be recoverable. The Fund applies for refunds where available. Estimated components of distributions received from real estate investment trusts may be considered income, return of capital distributions or capital gain distributions. Return of capital distributions are recorded as a reduction of cost of the related investments. Distribution (12b-1) fees and shareholder services fees relating to a specific class are charged directly to that class. Fund level expenses common to all classes, investment income and realized and unrealized gains and losses on investments are allocated to each class based upon relative daily net assets of each class. General expenses of the Trust are generally allocated to each fund under methodologies approved by the Board of Trustees. Expenses directly attributable to a particular fund in the Trust are charged directly to that fund.

**MLP Common Units** — Master Limited Partnership ("MLP") common units represent limited partnership interests in the MLP. Common units are generally listed and traded on the U.S. securities exchanges or OTC with their value fluctuating predominantly based on the success of the MLP. Unlike owners of common stock of a corporation, owners of MLP common units have limited voting

# QUALITY DIVIDEND FUND

## Notes to Financial Statements (Continued) April 30, 2023

rights and have no ability to annually elect directors. MLPs generally distribute all available cash flow (cash flow from operations less maintenance capital expenditures) in the form of quarterly distributions. Common unit holders have first priority to receive quarterly cash distributions up to the minimum quarterly distribution and have arrearage rights. In the event of liquidation, common unit holders have preference over subordinated units, but not debt holders or preferred unit holders, to remaining assets of the MLP.

**Cash and Cash Equivalents** — Cash and cash equivalents include cash and overnight investments in interest-bearing demand deposits with a financial institution with original maturities of three months or less. The Fund maintains deposits with a high quality financial institution in an amount that is in excess of federally insured limits.

**Dividends and Distributions to Shareholders** — Dividends from net investment income and distributions from net realized capital gains, if any, are declared, recorded on ex-date and paid at least annually to shareholders. Income dividends and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP.

**U.S. Tax Status** — No provision is made for U.S. income taxes as it is the Fund's intention to continue to qualify for and elect the tax treatment applicable to regulated investment companies under Subchapter M of the Internal Revenue Code of 1986, as amended ("Internal Revenue Code"), and make the requisite distributions to its shareholders which will be sufficient to relieve it from U.S. income and excise taxes.

**Other** — In the normal course of business, the Fund may enter into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on claims that may be made against the Fund in the future, and therefore, cannot be estimated; however, based on experience, the risk of material loss for such claims is considered remote.

## 2. Transactions with Related Parties and Other Service Providers

EquityCompass Investment Management, LLC ("EquityCompass" or the "Adviser"), serves as investment adviser to the Fund pursuant to an investment advisory agreement with the Trust. For its services, the Adviser is paid a monthly fee at the annual rate of 0.60% of the Fund's average daily net assets. The Adviser has contractually agreed to reduce its investment advisory fee and/or reimburse certain expenses of the Fund to the extent necessary to ensure that the Fund's total operating expenses (excluding taxes, fees and expenses attributable to a distribution or service plan adopted by the Trust, "Acquired Fund Fees and Expenses," dividend and interest expense on securities sold short, interest, extraordinary items and brokerage commissions) do not exceed 0.99% of average daily net assets of the Fund (the "Expense Limitation"). The Expense Limitation will remain in effect until August 31, 2023, unless the Board of Trustees of the Trust approves its earlier termination. The Adviser is entitled to recover, subject to approval by the Board of Trustees, such amounts reduced or reimbursed for a period of up to three (3) years from the date on which the Adviser reduced its compensation and/or assumed expenses for the Fund. The Adviser is permitted to seek reimbursement from the Fund, subject to certain limitations, for fees it waived and Fund expenses it paid to the extent the total annual fund operating expenses do not exceed the limits described above or any lesser limits in effect at the time of reimbursement. No recoupment will occur unless the Fund's expenses are below the Expense Limitation amount. As of April 30, 2023, the amount of potential recovery was as follows:

Expiration			
04/30/2024	04/30/2025	04/30/2026	Total
\$153,340	\$117,125	\$193,865	\$464,330

For the year ended April 30, 2023, the Adviser earned advisory fees of \$377,281 and waived fees of \$193,865.

## Other Service Providers

The Bank of New York Mellon ("BNY Mellon") serves as administrator and custodian for the Fund. For providing administrative and accounting services, BNY Mellon is entitled to receive a monthly fee equal to an annual percentage rate of the Fund's average daily net assets and is subject to certain minimum monthly fees. For providing certain custodial services, BNY Mellon is entitled to receive a monthly fee, subject to certain minimum, and out of pocket expenses.

## Notes to Financial Statements (Continued) April 30, 2023

BNY Mellon Investment Servicing (US) Inc. (the "Transfer Agent") provides transfer agent services to the Fund. The Transfer Agent is entitled to receive a monthly fee, subject to certain minimum, and out of pocket expenses.

The Trust, on behalf of the Fund, has entered into agreements with financial intermediaries to provide recordkeeping, processing, shareholder communications and other services to customers of the intermediaries investing in the Fund and has agreed to compensate the intermediaries for providing those services. The fees incurred by the Fund for these services are included in Transfer agent fees in the Statement of Operations.

Foreside Funds Distributors LLC (the "Underwriter") provides principal underwriting services to the Fund pursuant to an underwriting agreement between the Trust and the Underwriter.

The Trust and the Underwriter are parties to an underwriting agreement. The Trust has adopted a distribution plan for Class A and Class C shares in accordance with Rule 12b-1 under the 1940 Act. Pursuant to the Class A and Class C shares plan, the Fund compensates the Underwriter for direct and indirect costs and expenses incurred in connection with advertising, marketing and other distribution services in an amount not to exceed 0.25% and 1.00% (0.75% Rule 12b-1 distribution fee and 0.25% shareholder service fee) on an annualized basis of the average daily net assets of the Fund's Class A and Class C shares, respectively.

### Trustees and Officers

The Trust is governed by its Board of Trustees. The Trustees receive compensation in the form of an annual retainer and per meeting fees for their services to the Trust. An employee of BNY Mellon serves as the Secretary of the Trust and is not compensated by the Fund or the Trust.

JW Fund Management LLC ("JWFM") provides a Principal Executive Officer and Principal Financial Officer to the Trust. Chenery Compliance Group, LLC ("Chenery") provides the Trust with a Chief Compliance Officer and an Anti-Money Laundering Officer. Prior to December 1, 2022, ACA Group ("ACA"), operating through its subsidiary, Foreside Fund Officer Services LLC, provided the Trust with a Chief Compliance Officer and an Anti-Money Laundering Officer. JWFM and Chenery are compensated for their services provided to the Trust. ACA was compensated for its services provided to the Trust through November 30, 2022.

\* There is a 1.00% redemption fee that may be charged on shares redeemed which have been held 60 days or less. The redemption fees are retained by the Fund for the benefit of the remaining shareholders and recorded as paid-in capital.

### 5. Federal Tax Information

The Fund has followed the authoritative guidance on accounting for and disclosure of uncertainty in tax positions, which requires the Fund to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as tax benefit or expense in the current year. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as tax benefit or expense in the current year. The Fund has determined that there was no effect on the financial statements from following this authoritative guidance. In the normal course of business, the Fund is subject to examination by federal, state and local jurisdictions, where applicable, for tax years for which applicable statutes of limitations have not expired.

Distributions are determined in accordance with federal income tax regulations, which may differ in amount or character from net investment income and realized gains for financial reporting purposes. Accordingly, the character of distributions and composition of net assets for tax purposes may differ from those reflected in the accompanying financial statements. To the extent these differences are permanent, such amounts are reclassified within the components of net assets based on the tax treatment; temporary differences do not require reclassifications. For the year ended April 30, 2023, there were reclassifications between components of total distributable earnings. These permanent differences were primarily attributable to reclasses from capital gain to ordinary income and redesignation of dividends paid. Net assets were not affected by these adjustments. For the year ended April 30, 2023, there were no permanent differences reclassified between distributable earnings and paid in capital.

For the year ended April 30, 2023, the tax character of distributions paid by the Fund was \$1,920,266 of ordinary income dividends and \$8,670,407 of long-term capital gains dividends. For the year ended April 30, 2022, the tax character of distributions paid by the Fund was \$1,594,957 of ordinary income dividends and \$1,099,390 of long-term capital gains dividends.

# QUALITY DIVIDEND FUND

## Notes to Financial Statements (Concluded) April 30, 2023

As of April 30, 2023, the components of distributable earnings on a tax basis were as follows:

<u>Undistributed Ordinary Income</u>	<u>Undistributed Long-Term Gain</u>	<u>Unrealized Appreciation/ (Depreciation)</u>	<u>Temporary Differences</u>
\$271,324	\$709,118	\$1,640,575	\$(3,795)

The differences between the book and tax basis components of distributable earnings relate primarily to non-deductible expenses and wash sale loss deferrals.

At April 30, 2023, the federal tax cost, aggregate gross unrealized appreciation and depreciation of securities held by the Fund were as follows:

Federal Tax Cost . . . . .	<u>\$56,427,018</u>
Unrealized Appreciation . . . . .	8,629,214
Unrealized Depreciation . . . . .	(6,988,639)
Net Unrealized Appreciation . . . . .	<u>\$ 1,640,575</u>

Pursuant to federal income tax rules applicable to regulated investment companies, the Fund may elect to treat certain capital losses between November 1 and April 30 and late year ordinary losses ((i) ordinary losses between January 1 and April 30, and (ii) specified ordinary and currency losses between November 1 and April 30) as occurring on the first day of the following tax year. For the year ended April 30, 2023, the Fund had no short-term capital loss deferrals, no long-term capital loss deferrals or ordinary loss deferrals.

Accumulated capital losses represent net capital loss carryforwards as of April 30, 2023 that may be available to offset future realized capital gains and thereby reduce future capital gains distributions. As of April 30, 2023, the Fund did not have any capital loss carryforwards.

### 6. Subsequent Events

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

## Report of Independent Registered Public Accounting Firm

To the Board of Trustees of FundVantage Trust and  
Shareholders of Quality Dividend Fund

### Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Quality Dividend Fund (the "Fund") (one of the series constituting FundVantage Trust (the "Trust")), including the portfolio of investments, as of April 30, 2023, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the series constituting FundVantage Trust) at April 30, 2023, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2023, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more EquityCompass Investment Management, LLC investment companies since 2014.

## Shareholder Tax Information (Unaudited)

The Fund is required by Subchapter M of the Internal Revenue Code to advise its shareholders of the U.S. federal tax status of distributions received by the Fund's shareholders in respect of such fiscal year. During the fiscal year ended April 30, 2023, the Fund paid \$1,920,266 of ordinary income dividends and \$8,670,407 of long-term capital gain dividends to its shareholders. Dividends from net investment income and short-term capital gains are treated as ordinary income dividends for federal income tax purposes.

The Fund designates 100.00% of the ordinary income distribution as qualified dividend income pursuant to the Jobs and Growth Tax Relief Reconciliation Act of 2003.

The percentage of ordinary income dividends qualifying for the corporate dividends received deduction is 100.00%.

The percentage of qualified interest income related dividends not subject to withholding tax for non-resident aliens and foreign corporations received is 0.33%.

The Fund designates 100.00% of the ordinary income distributions as qualified short-term gain pursuant to the American Jobs Creation Act 2004.

The Fund designated \$8,670,407 as long-term capital gains distributions during the year ended April 30, 2023. Distributable long-term gains are based on net realized long-term gains determined on a tax basis and may differ from such amounts for financial reporting purposes.

All designations are based on financial information available as of the date of this annual report and, accordingly, are subject to change. For each item, it is the intention of the Fund to designate the maximum amount permitted under the Internal Revenue Code of 1986, as amended, and the regulations thereunder.

Because the Fund's fiscal year is not the calendar year, another notification will be sent with respect to calendar year 2023. The second notification, which will reflect the amount, if any, to be used by calendar year taxpayers on their U.S. federal income tax returns, will be made in conjunction with Form 1099-DIV and will be mailed in January 2024.

Foreign shareholders will generally be subject to U.S. withholding tax on the amount of their ordinary income dividends. They will generally not be entitled to a foreign tax credit or deduction for the withholding taxes paid by the Fund, if any.

In general, dividends received by tax-exempt recipients (e.g., IRAs and Keoghs) need not be reported as taxable income for U.S. federal income tax purposes. However, some retirement trusts (e.g., corporate, Keogh and 403(b)(7) plans) may need this information for their annual information reporting.

Shareholders are advised to consult their own tax advisers with respect to the tax consequences of their investment in the Fund.
